

NEWSFLASH

Welcome to the ENCR Newsflash - June 2024

This is the newsflash of the European Network of Cancer Registries. In this issue we highlight the proposal for two new ENCR Recommendations (CNS tumours and Tumour recurrences) and the request for feedback by ENCR registries. The calendar of ENCR events for 2024 is out.

NEWS

Call for expression interest co-organisation ENCR Scientific Conference 2025

The ENCR invites expressions of interest from European cancer registries to co-organize the bi-annual ENCR Scientific Meeting in 2025, together with the Joint Research Centre of the European Commission. This prestigious event brings together cancer registries across Europe, providing a platform to share research findings, discuss registration issues, exchange best practices, and present epidemiological work based on cancer registry data.

EVENTS

Workshop "Communicating for Impact", 25 September 2024, online

The 2-hour workshop will be an interactive online session, dedicated to ENCR registries. It will provide insights into tailoring messages, using appropriate channels, and reaching diverse audiences, use of social media, dealing with the press, and engaging with different audiences. The exact format and programme will be defined soon. Are you ready to amplify your impact?

Register

Workshop on Software and AI tools for Cancer Registries, 18 and 25 October 2024, online

The ENCR is organising a two-day virtual workshop on software applications and AI tools for cancer registries:

- **Day 1:** Software, Applications, and IT Tools for Data Collection and Quality Assurance in Cancer Registries.
- **Day 2:** AI-Supported Solutions for Cancer Registries – Support in Data Collection, Processing, and Analysis

A **Call for Experts** is opened for the presentation and discussion of projects at this workshop. Please [contact the ENCR Secretariat](#)

Ask an expert

The Ask an Expert section is available on the ENCR website for those who wish to submit questions about difficult-to-code cancer cases. Questions may be submitted in the original language.

[More](#)

eLearning

ENCR e-learning modules are accredited and aim to facilitate the training of cancer registrars in coding topography, morphology and cancer stage, implementing the relevant international classifications.
